CEMENT IN AUGUST 2009

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2008 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for August 2009 were about 6.9 million metric tons (Mt). This was about 23% lower than shipments in August 2008 (tables 2A and 2B). Year-to-date shipments were 47.7 Mt, down by about 28% compared with those of the same period in 2008. The leading producing States (Texas, California, Michigan, Missouri, and Pennsylvania, in descending order) shipped about 38% of the August total (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and Ohio, in descending order) received almost 33% of August's total shipments (tables 2A and 2B).

Clinker production totaled 6.0 Mt, about 15% lower than the production in August 2008 (table 4). Year-to-date production was 39.2 Mt, down by almost 27% compared with that of the same period in 2008. The leading clinker-producing States

(California, Texas, Missouri, Pennsylvania, and Michigan, in descending order) produced about 45% of the August total.

Masonry cement shipments in August of nearly 195,000 metric tons (t) were about 25% lower than shipments for August 2008 (table 2C). Year-to-date shipments were almost 1.49 Mt, down by about 32% compared with those of the same period in 2008. The leading consuming States in August, in descending order, were Florida, Texas, California, North Carolina, and Georgia, and these States received nearly 44% of August's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. August 2009 imports of cement and clinker of about 703,000 t were down by almost 33% from imports in August 2008. Year-to-date imports were nearly 4.7 Mt, down by about 44% compared with those of the same period in 2008.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.
